

Chronological List of LSU School of Renewable Natural Resources Graduates 1926-2008
Prepared by Dr. Paul Y. Burns, Prof. Emeritus, School of RNR, Dec. 26, 2008

Shows year of graduation, name of the degree granted, and academic major within the degree.

This list is one of two lists I prepared this month of RNR graduates 1926-2008. The arrangement of names in this list is chronological, year by year, beginning with Bryant A. Bateman, who received his BSF degree in 1926, and ending with 2008; within the year, the names are arranged alphabetically. The other list is alphabetical beginning with Jasmi Bin Abdul.

Codes used for degrees: BSF=Bachelor of Science in Forestry. BSwf=Bachelor of Science, major in wildlife & fisheries, BSwd sc & ut = Bachelor of Science, major in wood science and utilization, BSnre = Bachelor of Science, major in natural resource ecology & management, MF= Master of Forestry. MSGM= Master of Science in Game Management. MSfi= Master of Science, major in fisheries. MSfo= Master of Science, major in forestry. MSfo & ent = Master of Science, majors in forestry and entomology (only one granted, 1927). MSfpt= Master of Science, major in forest products technology. MSwi= Master of Science, major in wildlife. PhDfo= Doctor of Philosophy, major in forestry. PhDwfs= Doctor of Philosophy, major in wildlife and fisheries science.

Names of students used: I used the name of the student at the time of graduation. Where it was known, the full name of the student is shown.

Criterion for listing: All students who majored in a subject offered in the School and were awarded the degree during the period 1926 through 2008 are listed. There is one exception: The late R. Vance Miles, Jr. did not complete his BSF degree in 1932 as scheduled, but he was a leader in forest industry and an active supporter of the School throughout his life, so he continues to be listed as an alumnus. The School faculty did not discover that he had not received his degree until the mid 1970s.

Number of degrees granted 1926-2008: Grand total 3,048, including 2,025 bachelor degrees, 895 master degrees, and 128 doctorates.
